

The NJHCSA Chapter and the Atlantic Health System is pleased to invite you to attend a **FREE** upcoming Virtual Webinar sponsored by Healthmark Industries to be held **Saturday, December 12<sup>th</sup> from 9am to 12:30pm**. Please register below in the following link provided. You will receive **3-Hours CEUs** good for IAHCSSM, CBSPD, Nursing, and CBIC for IP Professionals. If attendees want to get together in a group in one location to watch the webinar, please email [crojo@hmark.com](mailto:crojo@hmark.com) to receive a special sign-in sheet.

Click Link to Register:

<https://attendee.gotowebinar.com/register/7112353003214873099>

After registering, you will receive a confirmation email containing information about joining the webinar. If you are using a work email, there may be security or policy restrictions from your facility restricting outside emails and you may have to use your personal email. You may want to look in your "Junk or Spam Email" folder, since confirmation emails can end up there.

### Healthmark Presenters:

John Whelan, Clinical Education Coordinator

Mary Ann Drosnock, Director of Clinical Affairs

### Agenda:

#### Introduction 9:00am to 9:15am

1. **9:15am to 10:15am** "IP and SP: Building a Relationship" Mary Ann Drosnock
  - Understand Infection Prevention & Control Standards and the importance of a strong relationship.
  - Discuss opportunities and examples of how to partner with Infection Prevention in the Sterile Processing Department.
  - Discuss specific challenges with COVID-19 and how Sterile Processing and Infection Prevention can partner together during a pandemic and through other healthcare emergencies.
2. **10:15am to 11:15pm** "COVID-19 Current Considerations for Processing" John Whelan
  - Compare/contrast the pre- and post-COVID experience in processing.
  - Discuss resources for guiding post-COVID practices.
  - Review the increased emphasis on infection prevention and PPE.
  - Examine the related supply chain impact on processing departments.

#### Break 11:15pm to 11:30pm (15 min.)

3. **11:30pm to 12:30pm** "The New AAMI ST91: An Updated Standard for Flexible Endoscope Processing" Mary Ann Drosnock
  - Discuss the updated ST91 standing including the key quality assurance parameters that should be built into endoscope reprocessing
  - Identify best practices in reprocessing of flexible endoscopes
  - Discuss how various methods of cleaning verification and surveillance testing can reduce Hospital Acquired Infections (HAI) and Surgical Site Infections (SSI) and help to determine if an endoscope is patient ready
