Product Evaluation Form

Product: Sterilization Paper Bags

The sterilization bags are made from 100% medical grade paper which is porous allowing complete permeation of steam and EO sterilants. The sterilization bags comply with AAMI ST79 standards by providing an alternative to utilizing poly/paper peel pouches in instrument sets to hold, separate and protect small items.

Evaluator's Name: _____

Date: _____

Title: _____

Dept: _____

Phone: _____
