### 01. Identification of the substance/mixture and of the company

Product name: Tray Corners Card

Code number(s): CC001, TC-001, TC-001ASM, TC-002, TC-002ASM, TC-003

Purpose of product: The paper tray corners are produced from pure cellulose EFG wood pulp, manufactured with low chloride and sulfate content and free from optical dyes. They are die-cut to be conveniently used to protect the corner of wrapped trays in just a couple of steps. Not only do they protect the corners of the trays, but because they are made of paper, they also absorb and disperse the condensate for better evaporation.
