Healthmark Offers New Robotic Instrument Protector Card

Fraser, MI October 26, 2022 -Healthmark Industries is delighted to introduce the Robotic Instrument Protector Card to its ProSys™ Instrument Care product line. Designed to be used in conjunction with a sterile barrier, the single use Robotic Instrument Protector Card is a backer board component that provides enhanced structural integrity of a sterile packaging solution for robotic instruments.

Manufactured from SBS paperboard, the Robotic Instrument Protector Card is equipped with a mounting surface, minimizing the possibility of packaged items compromising the sterile barrier. The Robotic Instrument Protector Card comes with a finger hole on each end for easy retrieval of items from packaging. This item is available for purchase in a box of twenty-five.
