The Healthmark + Avanti decor program is designed to reduce patient anxiety in hospital environments. The program was recently introduced at C.S. Mott Children's Hospital in Ann Arbor, Michigan.

“

Hospitals can be scary for adults, let alone children. The Healthmark/Avanti hospital decor program was a welcome addition to C.S. Mott Children's Hospital, providing a level of calm and comfort for situations that can be stressful for kids and families. And the fun animal-themed scrub caps worn by our healthcare workers is a nice diversion and conversation piece between the patients and healthcare staff.
